8) on clicking log out, it will exit the session and take you back to sign in page.

9) I tried using bcrypt to store passwords in hash form, but I found an error , currently unable to fix it. I will fix it soon.

mysql.connector.errors.ProgrammingError: 1064 (42000): You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near '\$2b\$12\$FVhYnIOVQ6asUiO9urW5eTlcUcDYRZrDXcQdXmSes317CruGcWnm')' at line 1

The debugger caught an exception in your WSGI application. You can now look at the traceback which led to the error.

To switch between the interactive traceback and the plaintext one, you can click on the "Traceback" headline. From the text traceback you can also create a paste of it. For code execution mouse-
